## TECHNICAL FEATURES

Specifications	H5-CPR Virtual
Number of vCPU	4
Host CPU req.	> 2.5 GHz
Memory req.	4 GB
Storage req.	300 GB
1 min / 5 min / 1 hour / 1-day storage	15 days / 1 month / 3 months / 6 months
Monitored objects	NA
Business Flow	NA
VLAN	NA
Hypervisor req.	VMWare ESXi 5.0 or latest

**H5-CPR Virtual**

- Easy to install
- Easy to deploy
- Real-time data analysis
- VMWare or Hyper V environment
- Hosted in private and public cloud
- Low memory required

## OUR VISION: VISIBILITY & TECHNOLOGY FOR NETWORK FLOWS

H5 Network R&D team has designed innovative technologies that enable enterprises, service providers and governments to enhance their global network and application visibility. With H5 Appliance, corporations can deploy an "easy-to-use" comprehensive software and hardware solution. This allows various team to access IT information in an adapted format.

Using a common tool for IT Reporting enables users to broadcast a clear and comprehensive information on applications' behavior and trending of the network. H5-Appliance provides a powerful network visibility solution for Network operations center, a clear vision for Network managers planning growth & IT changes, and for Helpdesk assisting users with IT issues on daily basis.
